

KC DCHS COVID Rental Assistance Survey February 2021

Start of Block: Introduction

Q1 Introduction

- A team from the University of Notre Dame is conducting an evaluation of King County's Eviction Prevention and Rental Assistance Program. Similar evaluations are underway in other cities and counties.
- The goals are to improve the program and to understand what happens in people's lives when they do or do not receive assistance.
- You are being asked to participate because you applied for that program.
- You will be asked to complete a 30-minute survey and allow the study team to access existing records on your housing, financial, and health situation.
- If you complete the survey, you will receive a \$20 Visa gift card.

Q2

Lotteries of Temporary Housing Assistance during the COVID-19 Epidemic

Principal Investigators: David Phillips, PhD & Robert Collinson, PhD

ABOUT THIS RESEARCH

You are being asked to participate in a research study exploring the impact of how cities and counties provided rental assistance during the COVID pandemic. This consent form will give you information about the study to help you decide whether you want to participate. Please read this form and ask any questions you have before agreeing to be in the study.

You are being asked to participate because you submitted an interest form for King County Department of Community and Human Services' (DCHS) 2020 Eviction Prevention and Rent Assistance Program (EPRAP). Similar studies are happening in other cities with similar programs, such as Chicago and Los Angeles.

King County is helping to support this research, but your survey responses will go to the University of Notre Dame. If you decide to participate, then the researchers will have access to the information you choose to share. The research is being conducted by the University of Notre Dame and is separate from the Eviction Prevention and Rent Assistance Program.

The study is being conducted by Dr. David Phillips and Dr. Robert Collinson in the University of Notre Dame's Department of Economics and the Wilson Sheehan Lab for Economic Opportunities. It is funded by the Abdul Latif Jameel Poverty Action Lab (J-PAL).

TAKING PART IN THIS STUDY IS VOLUNTARY

You may choose not to take part in the study or may choose to leave the study at any time. Deciding not to participate, or deciding to leave the study later, will not result in any penalty or loss of benefits to which you are entitled and will not affect your relationship with the King County Department of Community and Human Services (DCHS).

WHY IS THIS STUDY BEING DONE?

The purpose of this study is to learn more about the effects of financial assistance on the well-being of renters during a pandemic. This study will help us to understand the impact of EPRAP and find ways to improve EPRAP and other programs like it in the future.

HOW MANY PEOPLE WILL TAKE PART?

If you agree to participate, you will be one of approximately 6,000 participants taking part in this study.

WHAT WILL HAPPEN DURING THE STUDY?

If you agree to be in the study, you will be asked to do the following things:

You will be asked to complete a survey to help the researchers learn more about your housing, financial, and health situations. This survey should take about 30 minutes to complete.

The researchers will access data that is already being collected by other agencies. These administrative data may include records on residential addresses, homelessness services, credit history, wages, public benefits, arrests, and health, all of which is already collected for other purposes. Your credit history data will only be used for the purposes of the research at Notre Dame and will not be shared with anyone at DCHS. Accessing credit records for research does not affect your credit score.

For both surveys and existing data, the focus of this study is outcomes for large groups of people. Your name and other identifying information will never be attached to any published results.

WHAT ARE THE RISKS OF TAKING PART IN THE STUDY?

The risks involved with participation in this study are low, but the potential risks include loss of confidential data.

All confidential data used by the evaluation team will be stored in a secure location. Only members of the evaluation team will have access to the data. Any data that is transferred for the purpose of linking with administrative records will be encrypted in transit. No one will be able to identify you in any results published from the survey. Any study results will be published in aggregate (about the whole group taking part in the study). Data that has been cleaned of names and other personally identifying information may be provided to King County and other researchers.

WHAT ARE THE POTENTIAL BENEFITS OF TAKING PART IN THE STUDY?

We will provide a \$20 gift card to complete the survey. We don't expect you to receive any other benefit from taking part in this study, but we hope to learn things that will help inform financial assistance programs in the future.

HOW WILL MY INFORMATION BE PROTECTED?

Efforts will be made to keep your personal information confidential. We cannot guarantee absolute confidentiality. Your personal information may be disclosed if required by law. No information which could identify you will be shared in publications about this study and databases in which results may be stored.

All data used by the research team for analysis will be stripped of any identifying information and stored securely in an encrypted server. DCHS will not share any identifying information about you, such as your name and date of birth, with the researchers at Notre Dame. Only

members of the research team will have access to your survey data. Your survey data will be linked to administrative records by DCHS staff. Any data that is transferred for the purpose of linking with administrative records will be encrypted in transit and will not contain any identifying information about you.

In certain circumstances, other researchers may request access to de-identified information from this study. For example, researchers are often asked to make de-identified datasets available to other researchers so that other people can repeat their work and check to make sure it is correct. In these cases, your information will be made available to people outside the research team in a de-identified form. We will not make publicly available any pieces of information that could be tied back to you.

Organizations that may inspect and/or copy your research records for quality assurance and data analysis include groups such as the study investigator and his/her research associates, the University of Notre Dame Institutional Review Board or its designees, J-PAL, and (as allowed by law) state or federal agencies, especially the Office for Human Research Protections (OHRP), who may need to access the research records.

WILL MY INFORMATION BE USED FOR RESEARCH IN THE FUTURE?

Information collected from you for this study may be used for future research studies or shared with other researchers for future research. If this happens, information which could identify you will be removed before any information or specimens are shared. Since identifying information will be removed, we will not ask for your additional consent.

WILL I BE PAID FOR PARTICIPATION?

You will receive a \$20 Visa gift card for participating in this study. You may opt to receive a virtual or physical gift card. If you opt for a physical gift card, you will be asked to share your name and address with the research team for purposes of mailing you the gift card. This information will not be used in the study by the research team in any other way.

If you are one of the participants who was randomly selected to receive financial assistance for housing, please note that this is not payment for participating in the research, but it is a part of King County's Eviction Prevention and Rental Assistance Program.

WHO SHOULD I CALL WITH QUESTIONS OR PROBLEMS?

For questions about the study, contact the researcher, Dr. David Phillips, at 574-631-2683 or at dphill12@nd.edu.

For questions about your rights as a research participant, to discuss problems, complaints, or concerns about a research study, please contact Notre Dame Research Compliance at 574-631-1461 or at compliance@nd.edu.

Q3

WILL I BE CONTACTED ABOUT RESEARCH IN THE FUTURE?

If you agree, we may contact you after your participation is over to request additional information. Please initial one of the following options:

- ☐ Yes, I agree to be contacted for the purpose of collecting additional information. (1)
- ☐ No, I do not agree to be contacted for the purpose of collecting additional information (2)
-

Q119

Part of this evaluation is to see how financial assistance affects things that can be seen in existing records such as credit history. This evaluation would connect to these existing records using your name, date of birth, and address.

Your identity would only be used to know which records to include in the study. Your name will not be associated with any record. Pulling records for research purposes does not affect your credit score.

What is your full name?

Q138 You have reached the end of the survey! We are very grateful that you chose to share your experiences with us.

If you would like to review any of your answers, please do so now. When you are done, click through to the next page.

If you have any questions about the survey, please feel free to contact Dr. David Phillips at david.phillips.184@nd.edu.

The County is receiving additional dollars to support more households in 2021. King County is in the planning and development stage of this work, and anticipates being able to begin assisting households in early March 2021. Information about the new launch dates and ways to receive assistance will be posted on [King County's website](#) at that time. Please check the website for updates. King County looks forward to assisting you in the future. For immediate assistance, please call 211.
